

THE DOMINANT MUSCLE BUILDER

WHY USE BRANCHED CHAIN AMINO ACIDS (BCAA)? – Supplementation is crucial for athletes seeking to build muscle. BCAA are the primary building blocks for muscle growth, muscle protein synthesis, and lean muscle tissue and/or mass. Unlike other non-essential amino acids, BCAA Aminos – Leucine, Valine and Isoleucine – cannot be produced by the body, so must be provided through diet or supplementation.

WHY USE ALLMAX AMINOCORE? – Not all BCAA are created equal. AMINOCORE delivers 8.18 g of BCAA in a 9:6:5 clinically proven ratio to provide a 350% increase in the activation of muscle growth signals. With the use of pure, free form source of BCAA, AMINOCORE has no added fillers or non-BCAA aminos. AMINOCORE's 9:6:5 BCAAs are purified and tested prior to flavoring so they do not contain impurities resulting in cloudiness, oil foam, sediment, and the worst - a hard bitter taste! Aminocore is clean, pure, and the best-tasting BCAA supplement money can buy!

INTELLIGENT DIET SUPPORT – AMINOCORE feeds your muscles during diet and exercise to increase muscle protein synthesis, whether you want to build more muscles or simply maintain it, as it helps to alleviate the effects of muscle loss. Additional B-Vitamins further assist in maintaining the metabolic power.

THE SCIENCE OF MUSCLE GROWTH – AMINOCORE 9:6:5 BCAA ratio is clinically proven to increase the activation of muscle growth signals. Scientific studies have identified mTor-p70S6K as the trigger directly responsible for extreme muscle growth. Supplementing with BCAA has been shown to activate increased mTor-p70S6K cellular signaling responsible for muscle growth. The result: you build and retain more hard earned lean muscle and maintain a higher metabolism.[‡]

CLEAN FOR ATHLETES. BANNED SUBSTANCE TESTED. This product has been skip-lot tested for banned substances for the assurance of athletes and supplement users under the **Informed Choice** program. For further information about the testing process and test results, please visit www.CleanForAthletes.com.

[‡] Combined with intense resistance training, research has shown that 8,180 mg of BCAA in a 9:6:5 ratio increase signaling within muscle cells to upregulate protein synthesis (growth) by 350%. Research conducted at the Nobel Prize winning Karolinska Institute in Stockholm, Sweden. Journal reference: Karlsson et. al. Am J Physiol Endocrinol Metab 287: E1–E7, 2004.

Amount Per Serving / Teneur par portion		% DV/VQ**	
Total Carbohydrate / Glucides totaux		0 g	0% ^Δ
Sugars / Sucres		0 g	†
Niacin / Niacine		20 mg	125%
Vitamin(e) B6 (as / par Pyridoxine HCl & Pyridoxal-5'-Phosphate [P5P])		2 mg	118%
Folate (as Folic Acid / par acide folique & Calcium 5-Methyltetrahydrofolate / 5-Méthyltétrahydrofolate de calcium)		400 mcg	167%
Vitamin(e) B12 (as / par Methylcobalamin)		6 mcg	250%
AMINOCORE® BCAAs [9:6:5]		8,180 mg	†
L-LEUCINE [45%]		3,681 mg	
L-VALINE [30%]		2,454 mg	
L-ISOLEUCINE [25%]		2,045 mg	

NON-MEDICINAL INGREDIENTS: Citric Acid, Malic Acid, Natural and Artificial Flavors, Sucralose, Acesulfame Potassium, Lecithin (Sunflower), Calcium Silicate.
INGRÉDIENTS NON-MÉDICINAUX: Acide citrique, acide malique, saveurs naturels et artificiels, sucralose, acésulfame de potassium, lécithine (tournesol), silicate de calcium.

WARNINGS: For adult use only. Ensure to drink enough fluid before, during and after exercise. Do not take if you have pre-existing medical conditions. Consult a healthcare practitioner prior to use if you are pregnant or breastfeeding. Those sensitive to niacin may experience flushing of the skin that is generally mild and transient. Discontinue use and contact your healthcare practitioner if you experience adverse reaction. Consult a healthcare practitioner prior to use if you have liver or kidney disease, or if you have been instructed to follow a low protein diet. Store in a cool, dry place away from direct sunlight. Do not use if inner seal is broken.

AVERTISSEMENTS: Pour usage adulte seulement. Assurez-vous de boire suffisamment de liquide avant, pendant et après l'exercice. Ne pas prendre si vous avez des conditions médicales préexistantes. Consulter un professionnel de la santé avant d'en faire l'usage si vous êtes enceinte ou si vous allaitez. Les personnes sensibles à la niacine peuvent ressentir des rougeurs de la peau qui sont généralement légères et transitoires. Cesser l'utilisation et contacter votre professionnel de la santé si vous ressentez un effet indésirable. Consulter un professionnel de la santé avant d'en faire l'usage si vous souffrez d'une maladie du foie ou des reins, ou s'il vous a été demandé de suivre un régime pauvre en protéines. Conserver dans un endroit frais et sec à l'abri de la lumière directe du soleil. Ne pas utiliser si le sceau intérieur est brisé.

ALLERGEN WARNING: Produced in a facility that also handles Milk, Egg, Wheat, Peanut, Tree Nuts, Sesame, Fish, Crustacean and Shellfish products.

ALLERGÈNES AVERTISSEMENT: Produit dans une installation qui traite également des produits du lait, œuf, blé, arachide, noix d'arbre, sésame, poisson, crustacés et fruits de mer.
